

presto Adhesive Spray is a multi-purpose contact adhesive for long-lasting or temporary adhesion. The spray rate can be controlled due to an adjustable valve.

Application areas:

Carpet, cork, rubber, foam rubber, paper, cardboard, textiles, leather, metal, wood, numerous plastics and films

Ord.-no: 306321, 429941

### Quality & properties

- Fast drying time
- Adjustable spray head allows you to control spray rate
- Quick and reliable to use
- Jet spray ca. 10 cm wide
- Transparent Contact adhesive with a synthetic rubber base

### Physical & chemical data

- Base: Special resin
- Colourname: white-transparent
- Dry to touch: 5 min
- Surfaces: carpet, cork, rubber, foam rubber, paper, cardboard, textiles, leather, metal, wood, many plastics and foils
- Minimum Working Temperature: 5 °C
- Maximum Working Temperature: 30 °C
- Flash point: n.a.
- Storage stability: 10 y
- Content:
  - 400 ML
  - 150 ML

### How to use

- Bring the can to room temperature.
- Operating temperature 5° to 30°C.
- Shake can for 2 minutes before use.
- Surface should be clean, dry and free of grease.
- Spray at a distance of ca. 25-30 cm – further for polystyrene foam (Styropor®).
- Long-lasting adhesion: apply adhesive to both sides. After 15-20 minutes drying time, press the surfaces together.
- Temporary adhesion: Apply a thin even amount to the material and press them together after 5 -10 minutes.
- Apply more to extra absorbent materials. Press both pieces of material together till the adhesive dries.
- After use, turn can upside down and spray empty to clean the valve.

### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of May 7, 2025** – This release replaces all eventually earlier issued versions.
