

## presto Pressure Air Spray

## Technical Information

presto Pressure Air Spray removes easily, with high pressure, dust and loose dirt from places which are hard to reach.

For use on: audio- and video equipment, watches, cameras, keyboards, etc.

**Ord.-no:** 258312

### Quality & properties

- Very effective
- Leaves no residue
- Odourless
- Strong, directional spray
- Flammable

### Physical & chemical data

- Base: Propane / butane
- Colourname: transparent
- Surfaces: all kinds of surface and places which are hard to reach.
- Minimum Working Temperature: 5 °C
- Maximum Working Temperature: 30 °C
- Flash point: n.a.
- Storage stability: 10 y
- Content: 400 ML

### How to use

- Bring the can to room temperature.
- Operating temperature 5° to 30°C.
- Switch off electronic and electrical equipment before use so that there is no current at all.
- Spray judiciously on the surface to be cleaned and spray in short bursts.
- During treatment keep the can vertical. When the pressure falls interrupt the application, so that the pressure can build again.
- After treatment wait until all the combustible ingredients are vaporized (after 15 minutes at least)

### Environmentally sound

European Aerosols is committed to applying formulations without restricted or critical ingredients and to achieving the best possible performance. The caps and packaging are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed of as "special refuse".

### Marking/Labeling

All products made by European Aerosols comply with the actual labeling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of May 7, 2025** – This release replaces all eventually earlier issued versions.
