- Make sure that the engine has cooled down, first. Cover live parts and turn off electrical equipment before applying.
- Shake can for 2 minutes before use.
- Evenly spray onto the surface to be treated. Clean stubborn dirt with a brush.
- Leave for a few minutes the engine cleaner and then rinse with a high pressure cleaner or clean, warm water.
- Separate water from oil with an oil separator, then dispose of waste as chemical waste.
- Blow dry live parts with an air gun after cleaning.
- Do not use engine cleaner as a general cleaning substance.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.
