

presto Interior Refresher

Technical Information

presto Interior Refresher freshens the air in air conditioning and circulation systems in vehicles.

Simply place the can inside the vehicle. The contents empty automatically once the spray activator has been released.

Once the doors are shut and the engine is left running, the active ingredients circulate in the vehicle.

It is available in apple, lavender, lemon, orange, potpourri and New Car fragrances.

- Use for cars, lorries, buses and vans.

- Also suitable as refresher in living quarters.

Ord.-no: 157097, 157103, 157110, 157127, 157134, 408816

Quality & properties

Simple application
Leaves a pleasant smell
Long-lasting protection

Physical & chemical data

Base: Special resin
Colourname: transparent
Efficiency: 150 ML – 1 Pcs.
Minimum Working Temperature: 5 °C
Maximum Working Temperature: 30 °C
Flash point: n.a.
Storage stability: 10 y
Content: 150 ML

How to use

Bring the can to room temperature.
Operating temperature 5° to 30°C.
Shake can before use.
Leave the engine running and set the air circulation to full power.
Place seat and back rest in upright position.
Place the can behind the seat and activate it (press once).

Switch off engine and air the vehicle.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 7, 2025 – This release replaces all eventually earlier issued versions.
